|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| 型號    | <b>CB-24</b>                                                                                                                                           |
| 產品    | <b>SD 100m綜合電纜</b>                                                                                                                                     |
| 端子    | 1 x 5-pin XLR ITC/Tally cable<br>1 x 75Ω BNC for SD-SDI video<br>1 x 75Ω BNC for CV return video                                                       |
| 長度    | 100m                                                                                                                                                   |
| 適用中繼器 | VP-605H                                                                                                                                                |
| 應用作業  | Intercom & Tally<br>DC Power 12~48V<br>Up to 1080i video transmission (SD-SDI)<br>Return video for Look Back monitor<br>Datavideo OBV or Mobile Studio |
| 電纜直徑  | ---                                                                                                                                                    |
| 彎曲半徑  | ---                                                                                                                                                    |
| 工作溫度  | 0~55 °C                                                                                                                                                |
| 儲存溫度  | -20~80 °C                                                                                                                                              |
