|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 型號      | <b>NVD-30</b>                                                                                                                                                                                                                                    |
| 產品      | 網路直播解碼器                                                                                                                                                                                                                                          |
| 聲音/影像輸入 | Stream Input<br>· RTSP over UDP (Unicast / Multicast)<br>· RTSP over TCP<br>· RTSP over HTTP<br>· MPEG-TS over UDP<br>· RTMP over TCP<br>· UDP raw (Unicast/Multicast)<br>· HLS over HTTP<br>· MPEG-TS over TCP Pull<br>· Video sharing websites |
| 聲音輸出    | 2 x RCA(L/R)<br>HDMI embedded audio                                                                                                                                                                                                              |
| 影像輸出    | Composite (analogue)<br>HDMI (digital)                                                                                                                                                                                                           |
| 網路功能    | 1x RJ-45 Female (10/100M Ethernet) DHCP/Static IP                                                                                                                                                                                                |
| 支持影像格式  | 1080p 60/59.94/30/29.97/25/24<br>1080i 60/59.94/50<br>720p 60/59.94/50<br>576i 50 (PAL)<br>480i 60 (NTSC)                                                                                                                                        |
| 支持解碼格式  | Up to 1080p30/25                                                                                                                                                                                                                                 |
| 控制      | Web browser UI for configuration and control.<br>TCP/IP Socket commands                                                                                                                                                                          |
| 更新      | Automatic firmware upgrade                                                                                                                                                                                                                       |

|      |                                                                  |
|------|------------------------------------------------------------------|
| 工作電源 | Input AC 100~240V Switching Adaptor<br>Output DC 12V / 0.5 A     |
| 環境條件 | Operating temperature: 0~40°C, Storage temperature: -10~60°C     |
| 尺寸   | 220 x 143 x 47 mm                                                |
| 重量   | 1 kg                                                             |
| 電源   | DC 12V, 0.5A                                                     |
| 附件   | 1 x NVD-30 product<br>1 x AD Switch DC 12V<br>1 x Remote Control |
