|----------|-------------------------------------------------------------------------------------------------------------|
| 型號       | <b>PD-4A</b>                                                                                                |
| 產品       | 雙電源電源供應中心                                                                                                   |
| AC輸入     | 100~240 VAC (50Hz or 60Hz)<br>AC input outlet: Two AC inputs & Two Power Switches                           |
| DC備用輸出   | One DC 12V/25A<br>supports non-regulated DC 12V output                                                      |
| DC輸出     | 5<br>12V±5%, 5A XLR DC Female Jack x3<br>12V±5%, 10A XLR DC Female Jack x1<br>(share of two XLR DC Jack)    |
| 最大功率     | 360W                                                                                                        |
| DC超載     | DC overload protection, auto-recovery<br>fuses on each DC output terminal                                   |
| AC超載     | non-recovery fuse on the AC input outlet                                                                    |
| LED提示燈   | Green LED: Unit under working condition<br>Red twinkle: AC Input failed<br>1~4 XLR DC outputs LED indicator |
| 電源輸入自動判別 | Selectable of Auto/AC input switch                                                                          |
| 尺寸       | 484 x 300 x 49 mm                                                                                           |
| 重量       | 6.1 kg                                                                                                      |
| 電源       | AC 100-240 VAC<br>DC 12V 300W                                                                               |
| 操作溫度     | 0~40 °C                                                                                                     |
| 附件       | 1 x PD-4A product<br>1 x AC CORD                                                                            |
